COMMISSIONERS DISCUSSION ITEMS:

Chairman Corbett stated East Alabama Chamber of Congress annual report was received Monday night and anticipated Dennis Beson to there today, but he was not able to attend so Chairman Corbett encourages anyone that wants to know what the Chamber is doing, to reach out to Mr. Beson for the updates and he can share it with you. The Commission received that report Monday night.

Chairman Corbett stated the update on the Covid Vaccination Program and asks the EMA Director, Bob Franklin, to bring updates each meeting because it is a hot topic in the community and across the state and in the country.

EMA Director, Bob Franklin, states the biggest thing is how it is being monitored and what concerns them from the last 14 days. It does not matter that we have had 3,000 since the start, but the past 14 days when people are infectious our numbers have steadily been increasing. Mr. Franklin stated that just a month or so ago, we were less than 100 over a 14-day period, and as of yesterday, we were at 542. Since there is no drop, he encourages people to use social distancing, wear their masks, wash hands, and do the things talked about. Next, the vaccine's biggest issue in the State of Alabama (plus across the county) is the availability of vaccines. Since there is only a certain amount that can be produced at a time so we can only get a set amount to get in the state. Currently, the states receive around 50,000 to 60,000 doses a week and Mr. Franklin heard this morning that they will get 70,000 this week but that trickles out to all 67 counties across the state of Alabama. We are not getting what we need but we are getting some samples out there and getting more places online to get the vaccine. The State of Alabama is still following CDC guidelines in areas where they have not reached the saturation point on the people they want to vaccinate, currently that is 75 years of age and over population, as well as, firsthand responders including Sheriff, police, firefighters, EMTs, and healthcare workers. Per Mr. Franklin's yesterday's conference call, several counties brought up places vaccinating teachers and we would like to get teachers online quickly as we can. They brought it to the State's attention that they feel like they need to move to the next step as-soon-as possible and the State assured, they are working on it. Places we can currently call to make appointments to get the vaccinations is: Russell County Health Department 855-566-5333, Jack Hughston Hospital 334-732-3131 (leave message to schedule for appointment), Regional Rehabilitation Hospital 334-732-2200, Jackson's Point of Light Family Medicine 334-291-5255, and the Preferred Medical Group in Fort Mitchell 334-664-0463. Mr. Franklin stated that as they will get more places open from the allocations received in the counties spread out to get more people in since you can only get so many in at the Health Department or the Hospitals.

Chairman Corbett asked for questions and stated that one of the neighboring counties opened vaccines to the teachers that border our counties closely and it has caused some concern and disruption. Chairman Corbett has spoken with Mayor Loeb, Senator Whatley and Representative Blackshear trying to resolve the issue. Since the schools have their own pods and once vaccines are available to the schools, they can do their own vaccinations. Chairman Corbett assured both school superintendents that any help the Commission or the legislation can give to push it along, they will do. Only 1,000 doses are needed for teachers and school bus drivers and we cannot currently get it.

Bob Franklin, the EMA Director, stated that he spoke to the Autauga County EMA Director and of their two school systems, only one of their two schools in Autauga County were able to get their vaccinations while the other was denied (within the same county). Mr. Franklin said they are trying to work with public health officials to get it resolved. Chairman Corbett asked Mr. Franklin to tell Johnny Burrell with the Russell County Health Department that the schools are ready to handle distribution and vaccinations through the hospital and to make sure it noted when ordering.

Hope Hicks then stated the meeting would take about 30 minutes and the Commission would then come back into session before adjourning. Chairman Corbett stated they would go to Executive Session for about 30 minutes following the announcements and then they will reconvene to either take action or adjourn.

COMMISSIONER DISCUSSION

Chairman Corbett discussed to have a list of rules written down for entry into the courthouse, especially during the Covid times. He stated a raving complaint from a citizen that her child was not allowed to come into the courthouse before the courthouse shut down this past week. She stated that her kid had to stay at the door with the deputy. If no rules are currently written, we need to write a list and get it approved by the Commission since we do not want department heads making their own rules for our Courthouse. Commissioner Reed stated that if the kid is with their parent, there is no reason they cannot go in the Courthouse with them. Commissioner Lee agreed that the child does not need to stay outside. Chairman Corbett asked Bob Franklin to help get a list together of what rules might be now, please get it together to present to the Commission. Commissioner Lee stated that when Covid first started, to use common sense and leaving a child outside is not common sense.

Chairman made announcements.
