Procedure

Applicant requesting the driveway must pay the \$25 permit/inspection fee and mark the location of the center of the proposed access point with flagging ribbon or identification markers, and someone from the engineers office will go out and size the pipe and inspect the proposed location. Once the location is approved, the applicant will be contacted with what size and type pipe is needed: then the property owner or timber owner may install the pipe him/herself or the applicant may contact a licensed contractor to have the driveway installed. Once the ditch has been graded and the pipe has been placed, Russell County Engineering must inspect the installation of the driveway prior to placement of fill material over the pipe. Call (334) 855-0209, one business day prior, to schedule an inspection.

Indemnification

I, the undersigned, agree to comply with all conditions, restrictions and regulations of the Russell County Access Management Policy as well as the Russell Count Access Permit. Except for negligent acts of Russell County, I also agree to assume all liability for any save Russell County responsible from any and all claims for damage arising out of the work to be done herein, in addition to any damage done by the continued use of the driveway and pipe.
